## **DETAILED ACTION**

### ***Election/Restriction***

1. Applicant's election without traverse of claims 17-22 in Paper No. 5 is acknowledged.
2. Claims 1-16 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Election was made without traverse in Paper No. 5.

### ***Drawings***

3. The informal drawings are not of sufficient quality to permit examination. Accordingly, new drawings are required in reply to this Office action.

Applicant is given a TWO MONTH time period to submit new drawings in compliance with 37 CFR 1.81. Extensions of time may be obtained under the provisions of 37 CFR 1.136(a). Failure to timely submit new drawings will result in **ABANDONMENT** of the application.

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 2613

5. Claims 18, 19, and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. Claims 18, 19, and 22 recite the limitation "said characteristics" in lines 1-3. There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 102***

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

8. Claims 17-22 are rejected under 35 U.S.C. 102(e) as being anticipated by Geva (6,539,541).

Art Unit: 2613

Geva, in Figures 1, 4, and 5, discloses the same apparatus as specified in claims 17-22 of the present invention, comprising a plurality of image processing elements 100; a circuit that stores first states (n) of the image processing elements at a time of a specified image processing result; and an early exit circuit (Fig. 4) that determines a completion of a calculation based on comparing current states (i) with the first states (n).

With respect to claims 18-22, the image processing elements 100 include arithmetic states of groups 102; sign bits of accumulators (i.e. arithmetic operations) therein; and a video camera 128.
